

Community Nutrition and Wellness Concentration (revised 8/19/24)

The Community Nutrition and Wellness Concentration provides instruction and experience in the foundations of nutritional sciences and then allows students to further customize their education in non-clinical areas related to Community Nutrition & Policy, Communication & Entrepreneurship, and Fitness. Elective options include classes in Public Health Education, Kinesiology, Communications, and Business. Graduates may work in various settings such as community health, education, fitness, food services, government, and entrepreneurial enterprises. The Community Nutrition and Wellness concentration also prepares students for graduate training in Nutrition, Public Health Education, and Kinesiology. Although students will be trained to provide community nutrition and wellness information, they cannot provide medical nutrition therapy as this concentration does not meet requirements of the Accreditation Council for Education in Nutrition and Dietetics.

Tips for Success:

- To graduate in 4 years, you should be taking 15 credit hours most semesters.
- Prioritize completing ALL of the Natural Science courses by the end of your sophomore year as these are pre-requisites for courses that begin in your junior year.
- Success in college requires 2–3 hours of studying for every 1 credit hour (so a 3–credit class requires 6–9 hours per week outside the classroom). Please plan accordingly!
- NTR495 provides culminating field experience in Community Nutrition & Wellness concentration and requires additional planning during your last semesters.

COURSEWORK Minerva Academic Curriculum (MAC)	Credit Hours 33 to 34
Concentration Requirements* Natural Sciences	15
BIO 111 & 111L Principles of Biology 1 and Lab	4
CHE 103 & CHE110 General Descriptive Chemistry I and Lab	4
CHE 103 & CHETTO General Descriptive Chemistry II	3
,	
BIO 277 & 277L Human Physiology (or KIN 292/292L) and Lab	4
Additional Required Courses	18
CST 105 Introduction to Communication Studies	3
ENG 101 Exploring Writing in College Contexts	3
PSY 121 General Psychology	3
MAT 115 College Algebra or MAT 118 Algebra w/ Business Applic.	3
STA 108 Elementary Introduction to Probability and Statistics	3
CED 310 Helping Skills	3
CED 310 Helping 3kills	3
Nutrition Required Courses	34 to 38
NTR 101 Find Your Way in Nutrition (Fall only)	1
NTR 103 Introduction to Food Science	3
NTR 203 Basic Quantitative Principles in Food and Nutrition**	1
NTR 213 Introductory Nutrition	3
NTR 302 Nutrition Education and Application Processes**	3
1411 302 Hanmon Eddednon and Application 1 Tocesses	3

^{*}Minimum grade requirements of C for NTR courses; C- for other required courses.

^{**}Course has pre-requisites.

^{***}Specialize by taking electives within a cluster, or seek more broad training by taking electives across clusters.
